

# Finding the Right Building Solution is **Easy!**

---

## Share Your Ideas

Discover the best building styles and possibilities for your needs. Share your ideas with your local expert and watch your building dreams become a reality.

## What Will It Cost?

Your dealer will provide you with a free estimate outlining the costs for your building including installation, foundations and accessories. Ask about lease-to-own and financing options.

## Building Construction

Building construction starts as early as six weeks from the time you order your building. All of our buildings are engineered to meet local building codes, as well as snow, wind, and rain loads.

# The Britespan **Advantage**

---

## Natural Light & Ventilation

With bright, natural lighting and abundant ventilation inside, a Britespan fabric building provides a comforting environment for livestock, improving herd health and productivity. Eliminate the need for daytime lighting and improve worker safety within the shadow free environment.

## Wide Open Interiors

The open-span interiors in a Britespan building offer extraordinary height and clearance up to 300 feet wide. With no interior columns, you can maximize useable storage space and easily maneuver heavy equipment and vehicles within the building.

## Building Solutions

All of Britespan's structures are uniquely engineered to meet specific weather conditions and building codes. You can have confidence that your building has been engineered to withstand your local snow, wind and rain loads. Britespan fabric buildings are tested to the highest standards.

## Speed of Construction

Utilizing a pre-engineered and modular design, all of Britespan's fabric structures are built in a fraction of the time when compared to conventional buildings, often in weeks rather than months. This means less operating down time for you, and a faster turnaround for generating profit.

## Corrosion Resistant

Britespan trusses are hot dip galvanized, post fabrication, to prevent any rusting. This quality standard provides lifelong corrosion resistance and maximum durability, even in the harshest environments.

## Local Support

When you buy a Britespan fabric building, you automatically get support from our network of "Local Experts." Dedicated to you, our dealers are experienced in providing support from project inception through completion.
